

ANNAMARIE E. BAIR

annabair@mit.edu

EDUCATION

Massachusetts Institute of Technology (MIT)

Candidate for Master of Engineering in Computer Science June 2019 (expected)

Bachelor of Science in Computer Science and Engineering June 2018

Minor in Brain and Cognitive Sciences

RESEARCH

MIT CSAIL Clinical Decision Making Group

May 2017 - present

- Using machine learning to model gene expression data and analyze co-regulated genes.
- Participated in MIT's SuperUROP Program.

MIT Interactive Robotics Group

September 2015 - April 2016

- Conducted experiments that assessed situational awareness in human-robot interaction.
- Publication in The International Journal of Robotics Research (IJRR): *Computational design of mixed-initiative human-robot teaming that considers human factors: situational awareness, workload, and workflow preferences.*

MIT Media Lab

June - August 2015

- Developed platform that organizes education standards across 15 countries to help teachers compare curricula with regard to student age and topic area.
- Wrote Natural Language Processing scripts in Python with NLTK.

MIT Koch Institute

January - May 2015

- Assisted with design and creation of siRNA (small interfering RNA) used for targeted drug delivery.
- Maintained and split cell cultures and assisted with assays.

INDUSTRY

Microsoft

June 2018 - present

Software Engineering Intern
Redmond, WA

- Migrating data quality metrics from SQL to NoSQL database; improve metrics to reduce noise in error reporting.

Driver

June - August 2017

Software Engineering Intern
San Francisco, CA

- Built an API using Python, PostgreSQL, and Flask for a consumer technology company building a platform to give cancer patients access to new treatments.
- API integrates with internal services to automate ordering of medical diagnostic test kits from a third party vendor and stores patient information.

The New York Times

June - August 2016

Software Engineering Intern
New York, NY

- Designed and implemented improvements to a mobile website using Javascript, HTML, and CSS.
- Determined how to improve the user experience of a mobile web app in collaboration with a designer and carried project through the entire development process until the product was deployed to production.
- Created an iOS prototype for a social feature for The New York Times Cooking App.

TEACHING

MIT Lab Assistant

January - June 2018

Introduction to Computer Science and Programming (6.00)

- Assisted students with problem sets, gave check-offs, debugged problem sets before release.

La Miranda School Instructor

January 2018

Barcelona, Spain

- Developed lesson plans and taught math, coding, physics, biology, and English to 6th - 12th grade students.

MIT Lab Assistant

September - December 2017

Computation Structures (6.004)

- Assisted students with labs, gave check-offs, helped students with quiz preparation.

LEADERSHIP

MIT Class of 2018 Treasurer

October 2014 - June 2018

- Managed and allocated a \$300,000 budget.
- Planned events, mixers, and study breaks to promote class unity, involvement, and well-being.

Kappa Alpha Theta Chief Recruiting Officer

January 2017 - December 2017

- Served as a member of MIT Kappa Alpha Theta Executive board and MIT Panhellenic Recruitment Chairs Board.
- Led several recruitment workshops to prepare the 120 members for recruitment. Topics included conversation skills, branding of the chapter, and logistical details.
- Organized Fall Recruitment and led the chapter through preparation and recruitment weeks in the fall.

SKILLS

Programming: Python, Java, C#, SQL, MATLAB, JavaScript, HTML/CSS
Languages: Spanish (Proficient)
